Pick Professionals, Inc. (PPI)

## Warehouse Management System

**For the next millennium!**

Pick Professionals, Inc. (PPI) 8920 Pershall Rd. Suite 100 St. Louis, Mo 63042  
800 423-9158 314 522-4949 Fax 314 522-4950 [www.pickpro.com](http://www.pickpro.com) email [info1@pickpro.com](mailto:info1@pickpro.com)

**WMS+** from PPI is a Warehouse management System that can be described with two words, **Efficiency** and **Accuracy**. WMS was designed to give the user the tools to efficiently and accurately handle the movement of inventory. WMS+ tracks merchandise from the time it arrives at your dock door until you ship it to your customer. You will also know exactly what you have in stock and where it is. Our WMS will assist you in handling your merchandise as effectively as possible, reducing labor costs and eliminating losses due to poor product rotation. WMS+ will improve your customer satisfaction by insuring order accuracy and reducing turn-around time on orders.
